EXCLUSIVE

MEMBER  
BENEFIT

Plans are available to eligible residential customers in South Australia. Not available all areas. Any credit(s) include GST and will be credited to your account on or before your anniversary or your first gas bill. \*You'll receive \$110 of credits in the first year on your gas bill (\$50 credit on your first gas bill and \$60 on your first anniversary). Terms and conditions apply. Basic Plan Information Documents are available at [simplyenergy.com.au/vppextra](http://simplyenergy.com.au/vppextra). <sup>^</sup>The VPP Access credit will be calculated on the daily basis at \$7 per day, to a maximum of \$5,100 and credited to your account monthly provided you meet the terms and conditions.

# Make sure you meet the eligibility criteria for our Simply VPP offers

To access this offer you need to agree to us monitoring, controlling and managing your energy storage system. In return we will provide you with VPP Access Credits. To access these credits, you must meet and continue to meet various requirements, including:

Own the premises and live in South Australia in the areas where this offer is available

Have an eligible energy storage system that was installed by one of our specified installers after 15 January 2019

Have a solar PV system with a minimum 3kW inverter size

Have a reliable internet connection

Have a smart meter or be willing to have one installed

## Store energy and support your community

By connecting your existing solar system to an energy storage system you can use the electricity your solar panels have generated at a later time. Simply Energy's VPP has the technology to charge or discharge electricity to help support the grid when needed. Our VPP connects your energy storage system to other systems managed by Simply Energy to form a Virtual Power Plant.
